We have audited the accompanying combined statement of net assets of the Inland Empire Public Facilities Corporation as of June 30, 2004, and the related combined statements of revenues, expenses and changes in net assets, and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. INLAND EMPIRE PUBLIC FACILITIES CORPORATION
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

NOTE 1: DESCRIPTION OF THE CORPORATION AND ACCOUNTING POLICIES

The Inland Empire Public Facilities Corporation (the "Corporation") is a nonprofit public benefit corporation, formed on May 30, 1986, to serve the County of San Bernardino (the "County") by financing, refinancing, acquiring, constructing, improving, leasing and selling buildings, building improvements, equipment, land, land improvements, and any other real or personal property for the benefit of residents of the County.

The Corporation's financial statements are presented on the accrual basis of accounting. The Corporation is deemed to be a component unit of the County. Upon termination of the trust and lease agreements, any remaining assets of the Corporation shall become the property of the County. All projects are presented as proprietary funds.

The Corporation uses the Direct Financing Lease Method to record the lease of the projects to the County. Under this method, when a project is completed, the Corporation records a lease receivable (see Note 4) and the Capital Assets are carried on the books of the lessee (County). Until the project is completed, the expenses for capital assets are carried as Construction in Progress on the books of the Corporation.

The Corporation enters into interest rate swap agreements to modify interest rates on outstanding debt. Other than the net interest expenditures resulting from these agreements, no amounts are recorded in the financial statements.

The Corporation treats all investments with original maturities of three months or less as cash equivalents.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Accounting Changes

On July 1, 2001, the Corporation adopted the provisions of Governmental Accounting Standards Board Statement No. 34 "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*." Statement 34 established standards for external financial reporting for all state and local governmental entities, which includes a statement of net assets, a statement of revenues, expenses, and changes in net assets, and a statement of cash flows. It requires the classification of net assets into three components – invested in capital assets, net of related debt; restricted; and unrestricted. These classifications are defined as follows:

Invested in capital assets, net of related debt – This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net assets component as the unspent proceeds.

INLAND EMPIRE PUBLIC FACILITIES CORPORATION
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

**NOTE 1: DESCRIPTION OF THE CORPORATION AND ACCOUNTING POLICIES
(continued)**

Restricted – This component of net assets consists of constraints placed on net asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets – This component of net assets consists of net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

NOTE 2: THE PROJECTS

Construction and Improvement Project: The Corporation issued Certificates of Participation dated January 15, 1992 in the amount of \$89,905,000. The Corporation applied the proceeds of the sale of the Certificates, together with other available funds, to provide for the defeasance of \$72,760,000 of the \$111,695,000 then outstanding Certificates of Participation originally delivered in 1986 (the “Prior Certificates”). The Corporation issued Variable Certificates of Participation dated January 20, 1995 in the amount of \$40,400,000 (the “1995 County Center Refinancing Certificates”). The proceeds from the sale of the 1995 County Center Refinancing Certificates were used to provide for the defeasance of the remaining outstanding Prior Certificates in the amount of \$36,675,000 and to provide for reimbursement in the amount of \$1,751,174 to the County of San Bernardino. The reimbursement was to finance capital projects within the County. The Corporation issued Certificates of Participation dated July 11, 1996 in the amount of \$39,600,000 (the “1996 County Center Refinancing Certificates”). The proceeds from the sale of the 1996 Certificates were used to provide for the defeasance of the 1995 County Center Refinancing Certificates. The Corporation issued Certificates of Participation dated March 1, 2002 in the amount of \$68,100,000 (the “2002 Certificates”). The Corporation applied the proceeds of the Certificates for the defeasance of the \$66,130,000 outstanding Certificates of Participation originally delivered in 1992.

The Prior Certificates were delivered for a project with these three elements:

- a. The refunding of outstanding Certificates of the San Bernardino Building Authority for the construction of the County Public Government Center.
- b. The refunding of outstanding Certificates of the San Bernardino County Public Improvements Authority for the construction of the Foothill Law and Justice Center.
- c. The financing of certain improvements to the Chino Airport.

The County Government Center is a five-story office complex located at 385 North Arrowhead Avenue in San Bernardino. The Foothill Law and Justice Center is a four-story office and courtroom facility in the City of Rancho Cucamonga. Improvements to the Chino Airport include construction of four aircraft assembly buildings and appropriate site development. All these facilities, known as the “Construction and Improvement Project,” are leased to the County for lease payments which are designed in both time and amount to pay the principal and interest on the Certificates. On May 13, 1997, the Corporation approved amendments to the Lease Agreement entered into in connection with the issue of the 1996 County Center Refinancing Certificates. The amendment provided for the release of property leased and the substitution of other property owned by the County.

NOTE 2: THE PROJECTS (continued)

West Valley Detention Center Project: The Corporation issued Certificates of Participation dated May 1, 1992 in the amount of \$117,770,000 to provide for the defeasance of the \$104,745,996 outstanding Certificates of Participation which were delivered and executed in 1988. The 1988 Certificates of Participation were delivered to finance the construction of a detention center located in the City of Rancho Cucamonga and certain related facilities and equipment and acquisition of the site. In addition to providing for the defeasance, the Certificates of Participation were issued to provide for costs of additional improvements to the detention center in the amount of \$2,600,000, and to provide for reimbursement in the amount of \$8,980,336 to the County of San Bernardino. INLAND EMPIRE PUBLIC FACILITIES CORPORATION
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

NOTE 6: INTEREST RATE SWAP

Objective of the interest rate swap. As a means to lower financing costs, and to reduce the risks to the Corporation associated with the fluctuation in the market interest rates, the Corporation entered into an interest rate swap in connection with the Medical Center Series 1998 Certificates of Participation (Series 1998 Certificates) in the amount of \$176,510,000. The intention of the swap was to effectively change the variable interest rate on the bonds to a synthetic fixed-rate of 4.1895 percent.

Terms. The Series 1998 Certificates and the related agreement mature on August 1, 2026, and the swap's notional amount of \$176,510,000 matches the \$176,510,000 variable-rate Series 1998 Certificates. The swap was effective at the same time the Series 1998 Certificates were issued on October 22, 1998. Starting in fiscal year 2008-09, the notional value of the swap and the principal amount of the associated debt decline. Under the swap agreement, through August 1, 2005, the Corporation pays Merrill Lynch a fixed rate of 4.1895 percent and Merrill Lynch pays the Corporation an amount equal to the variable rate interest payable on the outstanding Series 1998 Certificates. After August 1, 2005 the Corporation pays Merrill Lynch a fixed payment of 4.1895 percent and receives from Merrill Lynch a variable payment computed as 73 percent of the monthly London Interbank Offered Rate (LIBOR). Conversely, the Series 1998 Certificates variable-rate coupons have historically been similar to the Bond Market Association Swap Index (BMA).

Fair Value. Because interest rates have declined since the execution of the swap, the swap had a negative fair value of \$4,098,284 on June 30, 2004. The swap's negative fair value may be countered by a reduction in total interest payments required under the variable-rate bonds, creating a lower synthetic interest rate. Because the coupons on the variable-rate Series 1998 Certificates adjust to changing interest rates, the Series 1998 Certificates do not have a corresponding fair value decrease. The fair value was the quoted market price from Merrill Lynch at June 30, 2004.

Credit Risk. The swap counterparty was rated Aa3 by Moody's and A+ by Standard & Poor as of June 30, 2004. The swap agreement specifies that if the long-term senior unsecured debt rating of Merrill Lynch & Co. is withdrawn, suspended or falls below A- (Standard & Poor) or A3 (Moody's) a collateral agreement will be executed within 30 days or the swap agreement will terminate.

Basis Risk. The swap exposes the Corporation to basis risk should the relationship between LIBOR and BMA converge, changing the synthetic rate on the Series 1998 Certificates. If a change occurs that results in the rates moving to convergence, the expected cost savings may not be realized. As of June 30, 2004, the BMA rate was 1.05 percent, the actual variable interest rate was 1.02 percent, and 73 percent of LIBOR was .9992 percent.

Termination Risk. The Corporation or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. The swap may be terminated by the Corporation if Merrill Lynch credit quality rating falls below A- as issued by Standard & Poor or A3 by Moody's. If the swap is terminated, the variable-rate Series 1998 Certificates would no longer carry a synthetic interest rate. Also, if at the time of termination the swap has a negative fair value, the Corporation would be liable to Merrill Lynch for a payment equal to the swap's fair value.

NOTE 6: INTEREST RATE SWAP (continued)

Swap payments and associated debt. Using rates as of June 30, 2004, debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same for their term, were as follows. As rates vary, variable-rate Series 1998 Certificates interest payments and net swap payments will vary.

Fiscal Year	Variable Rate Bonds		Interest Rate	Total
	Principal	Interest	Swaps, Net	
2004/05	\$ -	\$ 1,800,402	\$ 5,594,484	\$ 7,394,886

2006/07	-	1,800,402	5,594,484	7,394,886
2007/08	-	1,800,402	5,594,484	7,394,886
2008/09	1,000,000	1,795,302	5,578,637	8,373,939
2009-27	175,510,000	19,440,435	60,408,295	255,358,730
	<u>\$ 176,510,000</u>	<u>\$ 28,437,345</u>	<u>\$ 88,364,868</u>	<u>\$ 293,312,213</u>

NOTE 7: PRIOR YEARS' DEFEASANCE OF DEBT

In the prior years, the Corporation defeased certain Certificates of Participation by placing the proceeds of new certificates in an irrevocable trust to provide for all future debt service payments on the Certificates of Participation. Accordingly, the trust account assets and liability for the defeased certificates are not included in the Corporation's financial statements. At June 30, 2004, \$288,225,000 of Certificates of Participation outstanding are considered defeased.

NOTE 8: ARBITRAGE PAYABLE

The exclusion, under Section 103(a) of the Internal Revenue Code of 1986, from gross income for federal income tax purposes of the interest component of Lease Payments (and the interest payable with respect to the Certificates) is based on compliance with certain requirements of the Code. Included among such requirements of Section 148(f) of the Code is that certain excess investment earnings be rebated to the federal government.

Rebatable arbitrage (if any) is required to be paid to the federal government following the end of each period of five bond years during the term of the Lease Agreement (and Certificates of Participation). The Corporation has estimated the amount of rebatable arbitrage (excess investment earnings) as of June 30, 2004 as follows:

Medical Center Project	\$ 25,077

INLAND EMPIRE PUBLIC FACILITIES CORPORATION
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2004

NOTE 9: NET ASSETS/DEFICITS

The deficit was caused by a timing difference in recognition of revenue and expenses. Due to refunding of certain debt issues, costs, which otherwise would have been deferred, were accelerated into expenses.

Construction and Improvement Project Fund: The deficit was caused by the refunding of four debt issues resulting in total extraordinary losses in the amount of \$37.8 million.

The first refunding resulted in a \$9.0 million extraordinary loss during 1984-85. The refunded debt was the Certificates of Participation that originally financed the County Government Center.

The second refunding involved a \$15.1 million extraordinary loss during 1986-87. During this time, two Certificates of Participation issues were merged into a single issue. The two Certificate issues were the County Government Center Certificates (previously refunded in 1984-85) and the original Foothill Law and Justice Certificates.

The third refunding involved a \$6.9 million extraordinary loss during 1991-92. During this time, a portion of the 1986 Certificates of Participation were refunded.

All extraordinary losses consisted of prepaid interest, the difference in the amount placed in the escrow for redemption of the Certificates and the amount of Certificates removed from the Corporation's accounting records, redemption premiums, write-offs of Certificates issuance costs and write-offs of discounts on Certificates.

West Valley Detention Center Project: The deficit was caused by two debt refunding issues, an operating transfer and a timing difference in the expense of the interest of the 1988 Capital Appreciation Certificates and the collection of the associated lease revenue.

The first debt refunding involved an \$8.8 million extraordinary loss during 1991-92. During this time, 1988 Current Interest Certificates and 1988 Capital Appreciation Certificates were refunded.

The second debt refunding involved a \$2 million extraordinary loss during 2002-03. During this time, 1992 Series Certificates were refunded

The extraordinary loss was composed of the difference in the amount placed in the escrow for redemption of the Certificates and the amount of Certificates removed from the Corporation's accounting records, write-offs of Certificates issuance costs, write-offs of discounts on Certificates, and the unappreciated balance of the Capital Appreciation Certificates.

Glen Helen Blockbuster Project. The deficit was caused by a timing difference in recognition of lease interest income and amortization of costs of issuance on Certificates and deferred amount on refinancing.

Capital Improvement Refinancing Project: The deficit was caused by a timing difference in recognition of lease interest income and amortization of costs of issuance on Certificates and deferred amount on refinancing.
